

Headlamp Protection Film (HP70)

ClearPro Headlamp Protection Film is a protective film made of TPU material applied to the outside of the headlights, which gives the headlights and taillights a customized appearance while preventing fragmentation, cracking, and aging. It is also engineered with the same superior non-yellowing optical TPU and advanced Polyoptico™ coating technology.

CATEGORY	VALUE	CATEGORY	VALUE
Top Coating	Polyoptico™	Film Thickness	8 mil
60°Surface Gloss	95	Hydrophobic Angle	105°
Elongation (ASTMD-882)	450%	Visible Light Transmitted	70%
Ultraviolet Rejected	99%	Initial Peel Adhesion (ASTMD-882)	23 N/in
Aging Resistance (UV test:6000H)	Pass	Chemical Resistance (Acid Test)	Pass
Impact Test (SAE J400)	Pass	Warranty	10 Years

Note: 1. All the above values are nominal and should not be used for specification purposes.
